

Sorella milan collection

"Style is a way to say who you are without having to speak." — Rachel Zoe

Glasses cases today are as much of a fashion statement as your handbag, clutch or wallet. The Sorella Milan Collection is a combination of contemporary design, fashion and functionality.

Our Double Take case is a unique and glamorous clutch case designed to carry one or two pairs of glasses.

The cases are handmade from 100% top grain leather that has been custom dyed and treated for scratch/water resistance. There are 3 colours in the range – Red, Black and Brown. The case has a soft fabric lining in a choice of either animal print or a plush plain black. Our signature central divider separates and protects your glasses and the case is fastened by a hand stitched leather strap with silver or gold buckles and magnetic clips.

Although originally designed to carry 2/3 pairs of glasses this versatile fashion accessory can also double as a clutch bag. One side of the case can be used for glasses and the other side for credit card, lipstick, money etc.
